

Nationwide Telehealth Staffing & Virtual Care Solutions

From Gaps to Growth: Scalable
Telehealth for Modern
Healthcare Systems.

Connecting facilities with
experienced telehealth providers
to scale coverage and improve
patient care quality.

Operational Snapshot: Alina Telehealth at a Glance

450+

Specialists across multiple specialties

50

States – Comprehensive nationwide service

The Joint Commission's Gold Seal of Approval®

The Core Problem

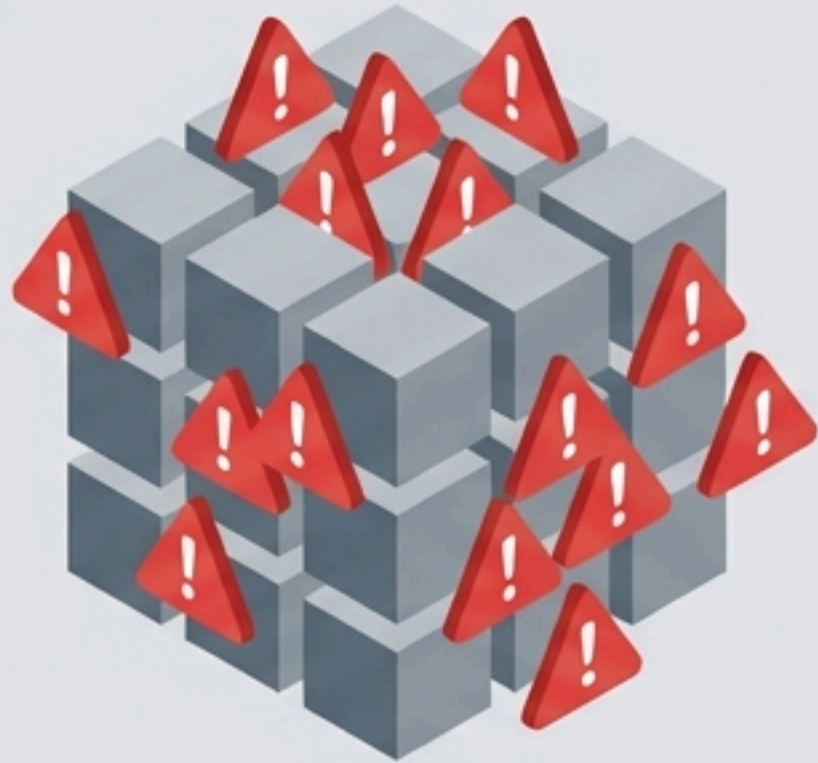

Facilities face critical staffing shortages and fluctuating patient demand.

The Core Solution

Board-certified experts available virtually to fill gaps without increasing full-time headcount.

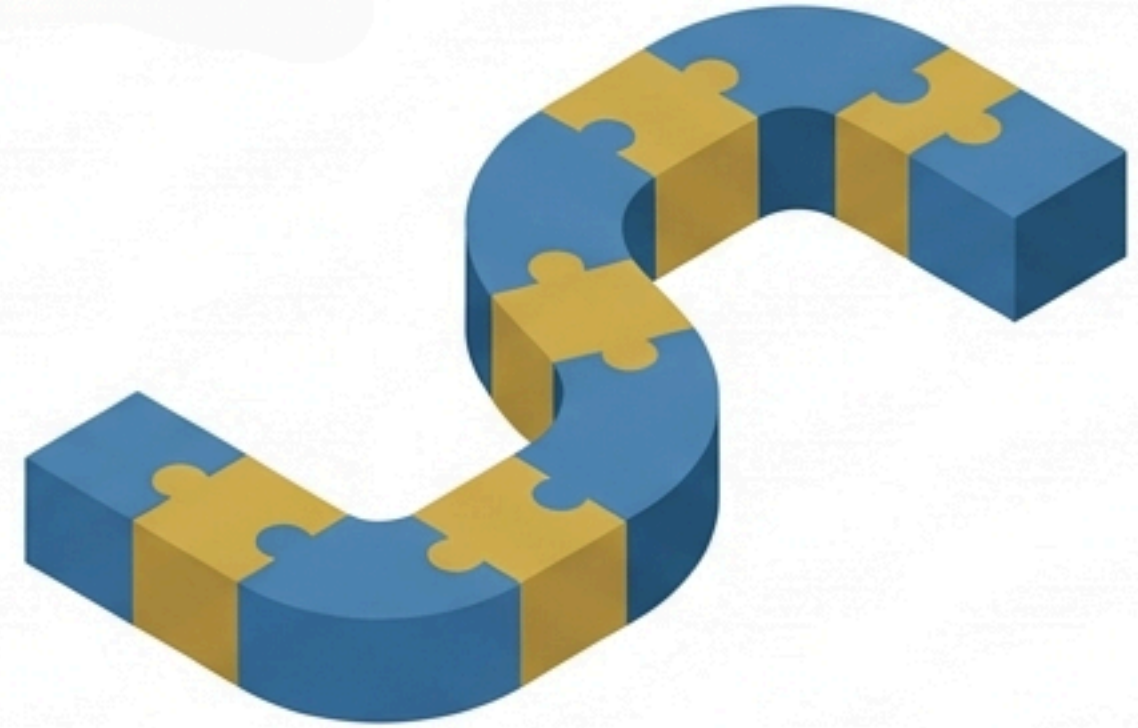

Solve the Staffing Paradox: Adapt to Demand Without Fixed Costs

Traditional Staffing

Rigid headcount, overburdened staff, coverage gaps.

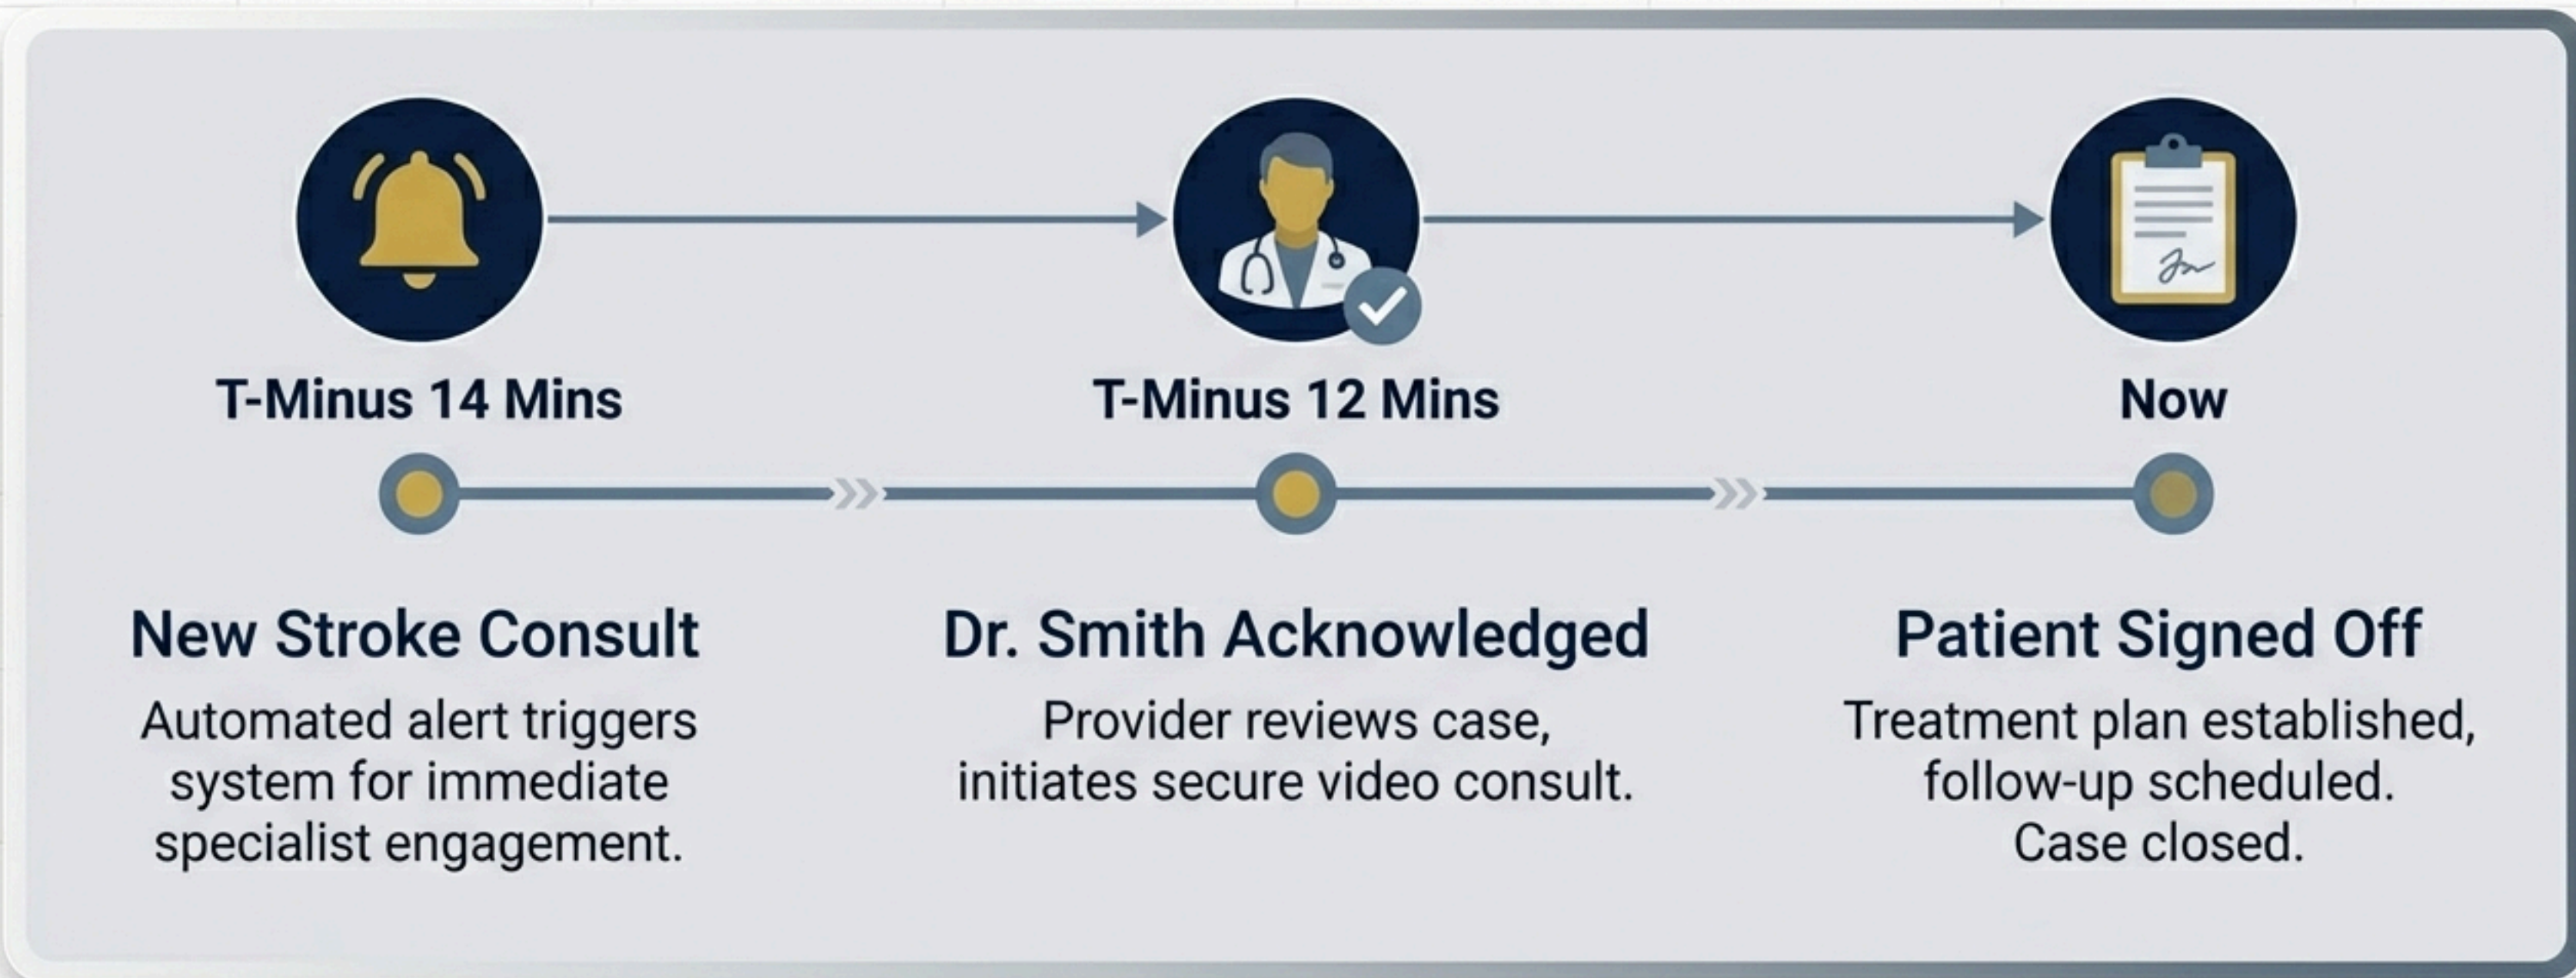

Alina Model

Flexible response, specialized coverage on-demand.

Keep your hospital or clinic running smoothly. Change provider and specialty coverage as patient needs evolve. Stay responsive and keep care standards high without spreading existing staff too thin.

Virtual Care That Keeps Patients Moving

Reduced wait times and reliable follow-up from board-certified providers. Enhance facility reputation and patient experience through immediate access to care.

Seamless Integration into Existing Workflows

A nationwide network of specialists ready to support new and added services. Beyond primary care, we provide the depth needed for complex medical departments.

A Network of Invested, Competent Practitioners

450+
Specialists 

“The daily workflow is straightforward... The hospitals we serve have patients with diverse backgrounds and medically challenging pathologies.”

**Dr. Tejas R.,
Teleneurologist**

“Alina facilitates meetings between the client and potential providers... never ‘push’ and make sure that each person is comfortable.”

**Dr. Stephanie H.,
Telepsychiatrist**

The Gold Standard in Compliance and Safety

Alina Telehealth maintains exceptional care quality and rigorous compliance. Secure video consultations and strict adherence to regulations ensure safe, compliant healthcare services.

Trusted by Facility Directors and Crisis Managers

“Support staff is quick and ready to work with our administrative staff 24 hours. Competent practitioners who invest their time with patients.”

Mary I.,
Crisis Stabilization Unit
Director

“Adeptly handles patient consultations... consistent availability and responsiveness have played a crucial role in the success of our TeleHealth initiatives.”

Kim Y.,
TeleHealth Product Manager

Answers to Common Staffing Questions

Q How quickly can you provide coverage? 

A When your facility needs it. Our national network allows hospitals to quickly fill coverage gaps.

Q What is involved in getting started? 

A Straightforward process. We work with you to identify needs, with secure platform integration that requires little to no disruption.
